

### "Domed" Shrink Wrap Bags

Our 100 gauge shrink film bags are clear, dependable and cost efficient. No sealer required. Each bag can be used in 2 ways: slide the bag over your gift basket for a clean smooth contoured look, or simply place the gift basket into the bag and fleurette the top for a traditional gift basket presentation.

**Bag sizing formula (for domes or squared bags).** With a flexible measuring tape, measure the two widest points of the basket in inches, take that total and add 10% then divide the measurement by 2. This width dimension is always the opening. For height start measuring at the highest point measure down around the bottom and up the back to the top of your basket. Take that total and add 10% then divide by 2.

30" x 32"  
Use if width = 28" - 34"

20" x 24"  
Use if width = 18" - 24"

**All Shrink Wrap meets FDA requirements for direct food contact.**

26" x 30"  
Use if width = 24" - 30"

16" x 20"  
Use if width = 20" or less

Choose bag size. Place over basket. Cut any excess from bottom of bag. If using without fleurette, the bottom of bag should be 1/2" under basket.

Shrink bag around basket with blow dryer or heat gun (for faster results). Begin shrinking shell at the base of the basket first, keep the heat source continuously moving 3"-5" away.

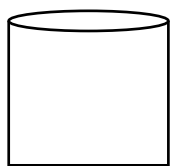

Decorate the handle with a bow.

\*Alternately: shrink shells with a plume. Turn the shell upside down so the opening faces up. Place the basket inside. Pull the sides up and gather the top with a bow or shrink as above. Do not let heat touch fleurette.

### Square PVC Shrink Bags

Give your products a new, factory-fresh look with brilliant sparkle and vivid clarity. Insert your merchandise into the bag, fold open side under the container (or product) secure with cellophane tape and seal, then shrink bag with heat gun skintight around your product. They insulate your merchandise from moisture, dust, oil damage and pilfering.

14" x 24" & 20" x 30" are the perfect sizes for theme boxes. (Pages 20 & 21.)

### Heat Guns & 12" Impulse Sealer

- Heat guns have choice of dual or variable temp.
1. Economy model has dual temperature: 450° or 1100° F.
  2. Variable Heat has positive on/off. Long life motor and dual speed fan.

Impulse Sealer features an adjustable timer. Turns on when you lower the seal arm. No warm up time required. Comes with an 1/8" flat heat sealing wire for a positive seal on poly bags, shrink wrap or mylar balloons (flat wire does not cut). Spare flat sealing wire included. For cutting and light duty sealing use the optional round wire.

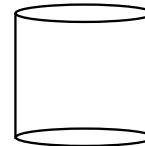

Heat Guns	Each
HGDT Economy/Dual Temp	\$44.00
HGVT Variable Temp	\$59.00

\*Kits come with 2 wires, 2 10-mil teflon strips for the underwire and 2 3-mil strips for over the wire.

12" Impulse Sealer	Each
IBS Impulse sealer	\$135.00
WKR Round cutting wire kit*	\$36.00
WKF Flat wire sealing kit*	\$36.00

### Tube Shrink Film

It's fast, easy & inexpensive. 100 gauge PVC packed in a convenient dispenser box! It's a seamless tube of shrink film with good shrinkability. No sealing equipment is required, just cut the length needed, tape the bottom, add a bow, and shrink with any heat source or seal the bottom to make a bag.

Order example: If you would like a roll of 50' tube shrink film that's 16" wide, your order code would be **TF16-50**

Tube Shrink Film	**50 (50')	**CS (250')
TF10-** (10" wide tube)	\$9.00	\$22.00
TF14-** (14" wide tube)	\$12.00	\$29.00
TF16-** (16" wide tube)	\$13.00	\$33.00
TF20-** (20" wide tube)	\$17.00	\$42.00
TF26-** (26" wide tube)	\$21.00	\$52.00
TF30-** (30" wide tube)	\$25.00	\$62.00

### PVC Centerfold Shrink Wrap

Crystal clear for use with heat sealing equipment or for working with only scissors and tape. Very high shrinkability. A hot air source is needed to activate the shrinking property!

To Use: 1. Cut a section of film slightly larger than the amount needed to wrap the basket. Allow for extra film to gather a plume at the top. Open the center folded film and lay it flat. Place item in center. Pull four corners up and gather together with a bow or tie. As you shrink with heat gun begin at the base first and rotate at a steady pace. Gradually work your way up and around, keeping the gun continuously moving while holding it 3-5" away from the film to avoid burning hole. Do not heat the plume.

2. Or use opposite with open ends under items, place it over containers, tuck it underneath, and use cellophane tape to secure. Use cellophane tape (it is unnoticeable after shrinking). Shrink as above including any excess on bottom. Add a bow and you're done.

3. Finally, with sealer or crimper make your own domed top bag or flat bags and shrink as suggested!

PVC Centerfold Shrink Wrap	**H (100')	**SH (500')
CSW22-** (22" wide)	\$22.00	\$78.00
CSW24-** (24" wide)	\$23.00	\$82.00
CSW36-** (36" wide)	\$36.00	\$119.00

### Hand Crimper Trimmer

This hand held heat sealer will seal bags any size or shape and trim away excess film. It is ideal for sealing film on baskets and bags. 6" cut/seal width. Constant heat after a few minutes of warm up. This is intended for occasional use due to its manual operation and requires some hand strength. A good corner trimmer, but not recommended as a substitute for a wire sealer or shrink wrap system. To seal an edge - overlap each seal to make one long interlocking seam along the edge of the film.

Hand Crimper-Trimmer	Each
HC	\$93.00

### Deluxe Shrink Wrap System

Portable and lightweight, built-in timer with LED light that indicates when seal is complete for great packages every time. Cuts and seals automatically. Built in cutter blade on arm slides easily to cut tube films. Designed to create your own shrink bags. 2 year factory warranty.
